

# PRINT:PARTNER CONFERENCE 2019

## UNLEASH THE POWER OF PRIINT:SUITE

TECHNOLOGY | BUSINESS | EXPERIENCE

#priintPC2019

MAY 2 + 3, 2019 MONTABAUR CASTLE, GERMANY

### MOVE BEYOND DIGITAL – ENABLE TRUE OMNICHANNEL!

With this trendsetting message, this year's priint:partner conference will start its second round. In his inspiring keynote, Horst Huber explains why digital alone is no longer sufficient for the future markets. Rather, it's about giving the customer real experiences. What the marketers and budget holding executives now confirm - print is an indispensable component of the customer journey - because it is much more sustainable and memorable than the purely digital background noise. Print is not part of the Customer Experience, print **is** a major experience.

A must event for all partners to unleash the power of priint:suite. Get to know the new possibilities of doing business with priint:suite. Learn how to implement priint:suite projects quicker and more efficiently. Benefit from the insights into the new features of priint:suite Release 4.1.6. Be there when the priint:community will meet on May 2 + 3 and register quickly. See you on Montabaur Castle, Germany.
